

## Fox Calibration Services Ensure Reliable Flow Meter Performance

Fox Thermal Instruments provides accurate, rugged, and reliable flow meters and flow and level switches to industrial OEMs and end-user customers in a wide range of industries - from biotech and food processing operations to utilities and chemical manufacturers.

Fox Thermal Instruments Calibration Lab offers these valued customers the services they need to ensure that their flow meters meet specified performance parameters and provide accurate, repeatable measurements in the field, day after day, year after year.

## Calibration Accuracy is Only as Good as the Reference Standard

Fox Thermal Instrument's test tunnels are calibrated at appropriate intervals, monitored for stability, and under the custody of trained laboratory personnel. Measurement assurance procedures and monitoring results are maintained in the laboratory database to ensure that all calibrations are accurate, verifiable, and traceable to NIST primary standards.
