

20TH ANNIVERSARY CLOSING ISSUE

Fox Model FT2A Wins Processing's Breakthrough Product of the Year Award for 2014!

The Breakthrough Products of the Year Awards from Processing recognize products, technologies and services that made significant contributions in the process industries and are expected to impact the industry for years to come.

Fox Thermal Instruments' Model FT2A Thermal Mass Flow Meter & Temperature Transmitter has a full range of communication options, including BACnet MS/TP, available intrinsically in the meter. This unique design allows the meter to be fully configurable to a wide variety of applications. [Learn More](#)
